

Bookmarking

Step 1 - Bookmark plays using the keyboard – B, G, H, J and K, or the remote using the “mark” button (toggles through 5 colors)

	QTR	SER	SER#	DN	DIST
TOTALS:					
1	1	1	2	2	8
2	1	1	4	2	9
3	1	1	5	3	6
4	1	2	1	1	10
5	1	2	3	2	7
6	1	2	4	1	10
7	1	2	7	1	10

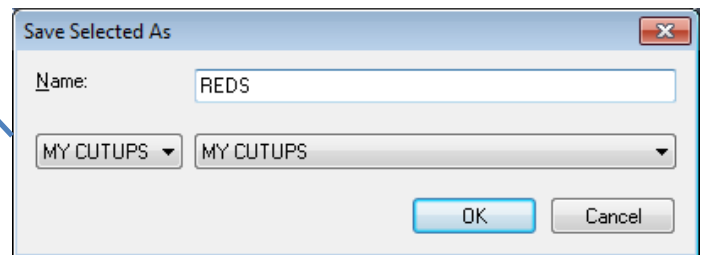

Step 2 - Click the “Bookmarks” Toolbar button and select the desired function.

Step 3 - You can select to make a cutup of all the bookmarked plays, or you can select Create multiple cutups... to get a separate cutup for each color you bookmarked.

Step 4 - Type the name for the new cutup(s) and click OK.

Step 5 - To add more plays to a new cutup, bookmark more plays with a different bookmark color. Select all the new plays, and then drag and drop the selected plays onto the cutup – either in the organizer or on the tab of the cutup in the playlist.

Screen Layout

- **O** – Show/Hide Organizer (Projects)
- **D** – Full screen data within ‘Projects’
- **P** – Toggle Playlist Layout (Projects)

Heads Up Display

- **Alt+S** – Show/Hide Dashboard
- **Shift+Ctrl+S** – Configure Dashboard
- **Must have the field in your headings**

General Shortcuts

- **Ctrl+N** – New cutup
- **Ctrl+S** – Save
- **Del** – Delete the play(s) currently selected
- **Ctrl+Y** – Redo
- **Ctrl+Z** – Undo
- To add or change data in a cell: **“Double-click”** the cell and type in the information - then enter. You can also use the drop down menu to select a data piece.

Tool Bar

Allows for “regular” click access to most coaching task functions:

To Customize, double click the tool bar or right click and choose “Customize”. Move tools to or from the right side as desired, also reorder them to your liking. From the right click menu, you can also change the font size or whether to use icons or not.

Trimming a Video Clip

- **Ctrl+1** – Quick Trim In to current video position
- **Ctrl+2** – Quick Trim Out to current video position
- **Ctrl+4** – Clear Quick Trim In or Out
- **Can only use with single view video**

Frame Management - Matrix

- **F11** – Open DVSPORT Matrix (also Tools-Matrix)
- **Shift +F** – sends the current frame of video to the Slide1 cell
- **F** – sends the current frame of video to the Matrix

Miscellaneous

- **Alt+Click** – highlights the data cell or row
- **Alt+Click Headings** – Clears all highlights.
- **(Alt or FN) +F8** – Changes your display to a secondary monitor.

Navigation – (if no remote)
